ΕΠΙΜΕΛΗΤΗΡΙΟ

Λευκωσία, 15 Απριλίου 2014

ΠΡΟΣ: Όλα τα Μέλη
ΘΕΜΑ: March 2014 Notification Procedure 1025/2012

Κυρία/Κύριε,

Σας επισυνάπτουμε γνωστοποιήσεις από Εθνικούς Οργανισμούς Τυποποίησης, μελών των Ευρωπαϊκών Οργανισμών Τυποποίησης CEN/CENELEC, που περιέχουν τους τίτλους προτεινόμενων εθνικών προτύπων.

Σύμφωνα με την Ευρωπαϊκή Οδηγία που αφορά την πληροφόρηση σε θέματα τεχνικών προτύπων, μπορείτε, αφού μελετήσετε τους τίτλους: α) να ζητήσετε όπως λάβετε ηλεκτρονικά ολόκληρο το κείμενο του προσχεδίου εθνικού προτύπου, εάν αυτό είναι διαθέσιμο, β) να συμμετάσχετε στις συναντήσεις της τεχνικής επιτροπής του Εθνικού Οργανισμού Τυποποίησης που ετοιμάζει το προσχέδιο προτύπου και γ) να υποβάλετε εισήγηση στον CYS, να αρχίσει τυποποιητική εργασία σε Ευρωπαϊκό επίπεδο σχετικά με το θέμα της γνωστοποίησης, εάν φυσικά πιστεύετε ότι το εν λόγω εθνικό πρότυπο θα επηρεάσει την ελεύθερη διακίνηση προϊόντων ή την κυπριακή βιομηχανία και οικονομία.

Τυχόν σχόλια και παρατηρήσεις παρακαλώ όπως υποβάλλονται στον Κυπριακό Οργανισμό Τυποποίησης. Σε περίπτωση που δε υπάρξει οποιαδήποτε ανταπόκριση, ο CYS δε θα φέρει ένσταση στην προώθηση των υπό αναφορά εθνικών προτύπων.

Για περισσότερες πληροφορίες μπορείτε να επικοινωνείτε με την κα. Μαριλένα Νικολάου, Λειτουργό Διοίκησης και Διεθνών Σχέσεων του Κυπριακού Οργανισμού Τυποποίησης (CYS), τηλ: 22 411439, Φαξ. 22 411511 και στην ηλεκτρονική διεύθυνση: m.nicolaou@cys.org.cy

Με εκτίμηση,

Ανδρέας Ανδρέου,
Αναπλ. Διευθυντής Τμήματος Βιομηχανίας.
για Γενικό Γραμματέα.

/MK

**REGISTER OF NEW NATIONAL STANDARDIZATION INITIATIVES
NOTIFIED UNDER SUBSECTORS IN THE SCOPE OF CENELEC**

March 2014

Issued on : 04 April 2014

Information Procedure on Standards

Notifications registered at CCMC during March 2014

Sector V : ELECTRONIC ENGINEERING

Register issued on : 04 April 2014

Subsector V08: CABLES AND WIRES FOR TELECOMMUNICATIONS

Subsector :	V08	Registration Date :	2014-03-19
Organization :	AENOR		
Country :	Spain	Latest Date for Comments :	2014-04-17
Project ID :	P0042421/0001		Draft for public enquiry
ICS :			
National Ref :	PNE 212002-1		
Title :	Low-frequency cables and wires with PVC insulation and PVC sheath. Part 1: General test and measuring methods.		

Relatedness :

National : REV/AMD UNE 212002-1:2003, UNE 212002-1/1M:2003

Subsector :	V08	Registration Date :	2014-03-19
Organization :	AENOR		
Country :	Spain	Latest Date for Comments :	2014-04-17
Project ID :	P0042422/0001		Draft for public enquiry
ICS :			
National Ref :	PNE 212002-2		
Title :	Low-frequency cables and wires with PVC insulation and PVC sheath. Part 2: Cables in pairs, triples, quads and quintuples for inside installations.		

Relatedness :

National : REV/AMD UNE 212002-2:2003, UNE 212002-2/1M:2003, UNE 212002-2/2M:2003

Information Procedure on Standards

Notifications registered at CCMC during March 2014

Sector W : ELECTRICAL ENGINEERING

Register issued on : 04 April 2014

Subsector W11: ELECTRICAL ACCESSORIES

Subsector : W11 **Registration Date :** 2014-03-03
Organization : AENOR
Country : Spain
Project ID : P0042681/0001 **Project Established**
ICS :
National Ref : PNE 20315-1-1
Title : Plugs and sockets-outlets for household and similar purposes. Part 1-1: General requirements.
Scope : It applies to plugs and socket-outlets, in a.c. with a rated voltages between 50 V and 440 V, and rated current up to 32 A for household and similar appliances.

Relatedness :

National : New

Subsector : W11 **Registration Date :** 2014-03-03
Organization : AENOR
Country : Spain
Project ID : P0042682/0001 **Project Established**
ICS :
National Ref : PNE 20315-1-2
Title : Plugs and sockets-outlets for household and similar purposes. Part 1-2: Dimensional requirements for Spanish System.
Scope : It applies to the dimensional requirements of the Spanish system for plugs and socket-outlets, for household and similar appliances, with a mains supply voltage of 230 V +-10% in a.c.

Relatedness :

National : New

Monthly Notifications Register

Notifications registered at CCMC from 2014-03-01 to 2014-03-31

Sector A : SERVICES

Register issued on : 2014-04-04

Subsector A03: POSTAL SERVICES

Subsector :	A03	Registration Date :	2014-03-14
Organization :	PKN		
Country :	Poland		
Project ID :	25901101/0001	Project Established	
ICS :	03.240		
National Ref :	prPN-P-71008		
Title :	Postal equipment -- The pillar city type letter box		
Scope :	<p>This standard specifies all requirements, which shall be met by the pillar city type letter box used by postal operators. It depicts the construction of a box and aggregate bag, assuring suitable capacity and steadiness. It relays dimensions of the box, dimensions of aperture and distance between lower edge of aperture and delivery floor level taking into account ergonomics reasons. It specifies materials providing appropriate mechanical strength as well as colouring. It incorporates issues related to: theft prevention, corrosion resistance and fire protection. It specifies requirements in fields of confidentiality and impregnability. It depicts inscriptions containing information necessary for senders, area and means of placement of postal operators' identification (logo). It defines additional equipment enabling to affix the box to bed. It indicates area and body of a tally. It provides list of attestation about positive results of strength tests, concerning protection of items and security during exploitation of boxes. Constructing boxes compatibly with requirements of this standard allows senders to distinguish easily between particular postal operators and ensures fulfillment of confidentiality and security terms of correspondence. It specifies all parameters, which have to be met by utilized by postal operators pillar city type letter boxes, leaving room for individual application of constructional, material and visual solutions.</p>

Project ID : 10001624/0001 **Project Established**

ICS : 93.080.20

National Ref :

Title : Soils for use in civil engineering work and road construction. Classification

Scope : This standard is applicable to soils used in earthworks and foundations based on soil classification covered by LST EN ISO 14688-2. This standard is not applicable to soils and rocks containing more than 40 % of boulders.
Identification and description of soils are covered by LST EN ISO 14688-1, of rocks – by LST

Scope : EN ISO 14689-1.
 This standard specifies classification of soils and rocks with respect to their extraction (excavated, filled-up, dredging) and suitability for drilling works.
 In this standard, soils are classified into groups of similar composition and geotechnical properties, for example:

- Shear resistance;
- Compactibility;
- Compressibility;
- Permeability;
- Resistance to erosion;
- Frost sensitivity.

With respect to suitability for engineering works soils are classified into, e.g.:

- soils for foundations;
- soils for earth roads and temporary roads;
- soils for roadbeds and railway beds;
- soils for embankments;
- soils for drainage.

The properties of each group of soils may vary depending on moisture for fine-grained and multi-grained soils, and depending on compaction degree for coarse-grained and multi-grained soils.

Title : Plastic materials - Additives intended to promote the degradation of polyolefin-based thermoplastic materials
Scope : The technical report is intended to provide information on additives present in the market in the form of " masterbatch " to be added to the polyolefin phase transformation to promote degradation, identifying the origin of different technologies with the exception of the copolymers photodegradable. Technical information is available from scientific publications, as well as those provided directly by manufacturers with regard to their websites, are used by highlighting the claims of an environmental nature related to the characteristics of degradation / biodegradation based on the mechanisms of action of additives.
 The technical report also highlights the currently existing legislation and the need for further standardization and invites you to pay attention to the difference between the terms degradation and degradation. The first indicates a process that can be measured using the appropriate test methods, the second indicates a property. For example, the biodegradability of a material is deduced by following its degradation process under predetermined and controlled , by checking if the level reached corresponds to the expectations.

Title :	Sustainability criteria for biomass for energy purposes
Scope :	NTA 8080 describes the requirements for sustainable biomass for energy purposes (power, heat & cold and transportation fuels). With biomass is meant solid as well as liquid and gaseous biofuels. The sustainability requirements as described in clause 5 of this NTA apply to organisations which produce the primary biomass. An exception on this is the provision of 5.2.1 (greenhouse gas balance), which applies to all organisations who belong to the whole bio-energy chain, from cultivation to end use. This NTA is intended to be applied at organisations that: - want to produce biomass for energy purposes and to sell this as sustainably produced; - want to convert biomass and sell this as sustainably obtained and sustainably converted; - want to trade and/or transport biomass and have to demonstrate that (a part of) the charge is produced, converted and obtained as sustainable; - want to use (converted) biomass for generation of energy or as transportation fuel (pure or blend) and shall demonstrate that (a part of) the biomass is produced, converted and obtained as sustainable. Requirements can be excluded from assessment, when the organisation can explain with proof that the requirement(s) is (are) not applicable. The certifying body is responsible for the determination if a criterion for application may be excluded. For small-holders it applies that they are released for the provisions of 5.1.3 (Consultation of stakeholders), 5.6 (Prosperity), 5.7.1 (Working conditions), 5.7.4 (Contribution to social well-being of local population) and 5.7.5 (Integrity of the company). For the purpose of certification small-holders can use group certification, as described in 6.3.

Title :	Iron and steel sustainability management systems. Requirements.		
Scope :	This standard specifies the requirements of a sustainability management system for organizations producing iron and steel products. The aim of this iron and steel sustainability management system is to enable these organizations to develop and implement a sustainability policy and objectives which take into account legal or other requirements subscribed by the organization and the information concerning their performance in the economic, social and environmental fields, which are the three facets of sustainability. It is applicable to the aspects of sustainability that the organization can control or influence.
