Enterprise Europe Network

Project Enterprise Europe Network as initiative of programme CIP (Competitiveness and Innovation Framework Programme) is the largest network of EU promoting international cooperation of SMEs in the field of:

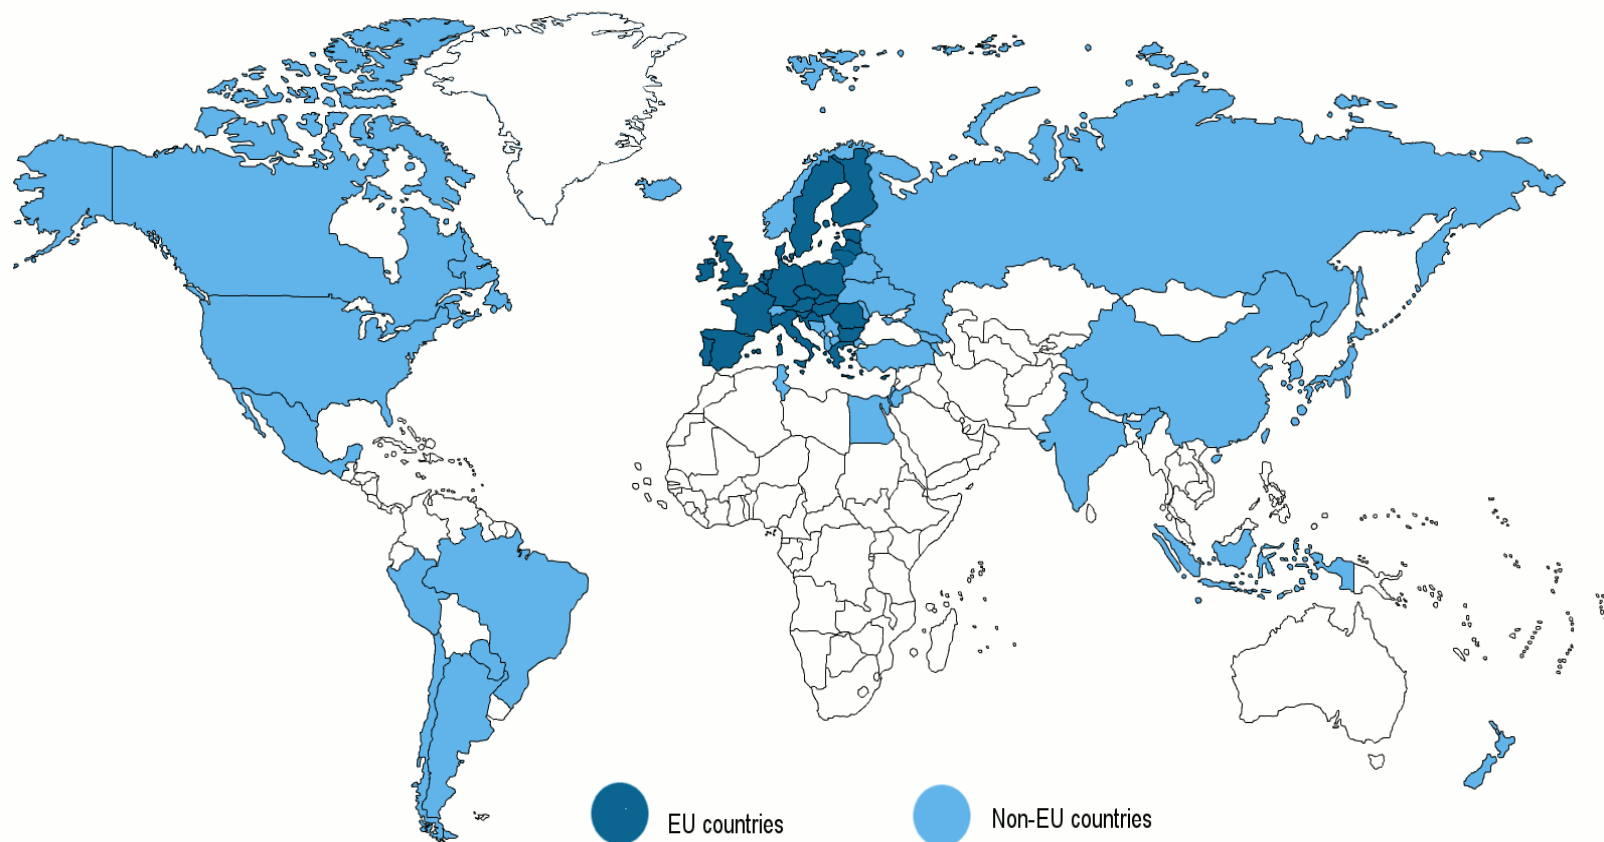

- Business
- Innovation and Technology
- Research and Development

Enterprise Europe Network

The network associates in 63 countries more than 600 organizations, including Chambers of Commerce, regional development agencies, technology centers, universities, consultation companies etc., in them around 3000 experts.

It was established as an association of Euro Info Centres, Information Relay Centres (Centres for transmission of Information) and the 7th Framework Programme.

Enterprise Europe Network

Offered services

- providing information, advice services on doing business in EU internal market
- promotion of international cooperation business
- promotion of innovation, technology transfer and know-how
- support of participation of companies in European research programs
- seminars, business missions, brokerage events, databases

Doing business in Internal Market

We provide information and advice in the areas of:

- European affairs and policy
- receiving and posting of workers into EU countries
- how and where to obtain financing
- standardization, conformity assessment of products ...
- calls, tenders, public procurement
- business cooperation – Partnership Opportunity Database – Offers & Requests in the field of business, technologies and research

Partnership Opportunity Database

Database offers companies a **free** publication of profile and promotion of their products and services. Database is updated by nearly 600 network partners in Europe, America and Asia, so it is possible constantly searching for business partners.

Database offers two options:

- publication of the company offer
- obtaining contacts for already published offers of foreign companies in the database

Partnership Opportunity Database

How to post your profile? – For publishing in database should be completed a form (available at your EEN office), specify products, services & technologies or ideas for project partners, and indicate the countries in which the application should be published.

Choose from a database of published profiles

EEN has a special website, where the newest profiles of foreign companies in many categories are updated

Support of innovation and know-how

- we provide active guidance
- we provide information on sources of innovation financing
- we perform technology audits in companies
- we elaborate technological profiles
- we support technology transfer
- Database for technology offers & requests

Database for technologies

Offers companies a **free** publication of technological offers and requests and the promotion of products or services. Another option is to find partners in the field of innovation, technology and know-how.

If company deals with technologies and innovations in the field of manufacturing, communications, energy, electronics, biology, health, agricultural etc., database offers the possibility of finding a suitable partner for further cooperation.

SME Feedback

European Commission uses the EEN network to receive regular feedback from companies to ensure that policies and initiatives that EC prepares suit their requirements and will not lead to unnecessary bureaucracy that could Harm their competitiveness and innovative potential.

- Database SME Feedback, online consultations and SME pannels

Our success

EEN Slovakia brings together 4 key organizations active in promoting entrepreneurship - Business Innovation Centre, Slovak Business Agency, Slovak Chamber of Commerce and Industry, Regional Advisory and Innovation Centre Prešov.

Network works with over 30 organizations in the frame of agreements on cooperation (agencies, associations, unions, clusters, universities, technology transfer centers, etc.).

Our success

Since 2008, EEN Slovakia organized around 260 seminars with ca 5.000 participants, 90 brokerage events and 30 business missions with more than 2.500 participants.

Network staff has provided free advice services to ca 6.000 companies and visited more than 1.500 companies to evaluate their business and technology opportunities.

As a result of our activities, 170 international business and technology partnerships were achieved.
