ΕΜΠΟΡΙΚΟ ΚΑΙ
ΒΙΟΜΗΧΑΝΙΚΟ
ΕΠΙΜΕΛΗΤΗΡΙΟ

Λευκωσία, 12 Μαρτίου 2018

ΠΡΟΣ: Όλα τα Μέλη

Κυρία/ε,

Σας επισυνάπτουμε γνωστοποιήσεις από Εθνικούς Οργανισμούς Τυποποίησης, μελών των Ευρωπαϊκών Οργανισμών Τυποποίησης CEN/CENELEC, που περιέχουν τους τίτλους προτεινόμενων εθνικών προτύπων.

Σύμφωνα με την Ευρωπαϊκή Οδηγία που αφορά την πληροφόρηση σε θέματα τεχνικών προτύπων, μπορείτε, αφού μελετήσετε τους τίτλους: α) να ζητήσετε όπως λάβετε ηλεκτρονικά ολόκληρο το κείμενο του προσχεδίου εθνικού προτύπου, εάν αυτό είναι διαθέσιμο, β) να συμμετάσχετε στις συναντήσεις της τεχνικής επιτροπής του Εθνικού Οργανισμού Τυποποίησης που ετοιμάζει το προσχέδιο προτύπου και γ) να υποβάλετε εισήγηση στον CYS, να αρχίσει τυποποιητική εργασία σε Ευρωπαϊκό επίπεδο σχετικά με το θέμα της γνωστοποίησης, εάν φυσικά πιστεύετε ότι το εν λόγω εθνικό πρότυπο θα επηρεάσει την ελεύθερη διακίνηση προϊόντων ή την κυπριακή βιομηχανία και οικονομία.

Τυχόν σχόλια και παρατηρήσεις παρακαλώ όπως υποβάλλονται στον Κυπριακό Οργανισμό Τυποποίησης. Σε περίπτωση που δε λάβουμε καμία ανταπόκριση, ο CYS δε θα φέρει ένσταση στην προώθηση των υπό αναφορά εθνικών προτύπων.

Για περισσότερες πληροφορίες μπορείτε να επικοινωνείτε με την κα. Μαριλένα Νικολάου, Λειτουργό Διοίκησης και Διεθνών Σχέσεων του Κυπριακού Οργανισμού Τυποποίησης (CYS), τηλ: 22 411439, Φαξ. 22 411511 και στην ηλεκτρονική διεύθυνση: m.nicolaou@cys.org.cy

Με εκτίμηση,

Ανδρέας Ανδρέου,
Διευθυντής Βιομηχανίας,
για Γενικό Γραμματέα.

/ΜΚ.

Title :	People management systems. Requirements		
Scope :	This Standard specifies requirements for a people management system, covering all hierarchical levels, areas of activity and organic units of an organization, as a vehicle for improvement its effectiveness and efficiency. The requirements of this Standard apply to organizations intending to: - demonstrate their ability to attract, develop and retain the people needed to fulfil their mission; - implement, maintain and continuously improve an organization-wide people management system; - enhance the satisfaction of its employees through the effective application of the system, including procedures to ensure compliance with applicable statutory and regulatory requirements. All requirements of this Standard are generic and are intended to apply to all organizations regardless of type, size and activity developed. The extent of application will depend on factors such as the organization's people management policy, the complexity of its structure, and its activity.

National Ref :	UNI1604260		
Title :	Adoption and effective implementation of the Organizations and Management Models (MOG) of health and safety - Asseveration procedure in the construction and civil engineering sector		
Scope :	<p>Legislative Decree 81/2008 and subsequent amendments has the power to release the affidavit on the adoption and effective implementation of the organization and management models of health and safety as declined in art. 30 of same legislative decree, and having the aim of preventing the crimes referred to the art. 25 septies of Legislative Decree 231/01 and subsequent amendments.</p> <p>This opportunity is up to the Joint Bodies constituted of associations of employers and workers between the most representatives at national level.</p> <p>However, the law does not give a resolution about the kind of requirements or procedures for the implementation of the affidavit activity, except for the one, provided for in paragraph 3b of art. 51 of the Decree 81, according to which "for the purposes referred to paragraph 3- bis, the joint bodies establish specific joint commissions, technically competent".</p> <p>Therefore, National Commission for Accident Prevention, Hygiene and the Working Environment (CNCPT) has promoted in UNI the declination of a standard affidavit path all over the national territory for construction companies through the drafting and publication of UNI / PdR 2: 2013 reference practice.</p> <p>Furthermore, within the UNI framework, a technical report is being approved that regularly declaims the methods of affidavit of MOGs by Joint Bodies (UNI1601968 Project) aimed at making the process uniform for all the production sectors.</p> <p>As the practice is near to its expiring date, the publication of a dedicated sectorial standard has been decided as the result of a public consultation inside standardization body. The standard will join a more complete framework including the new RT relative to project n. UNI1601968 almost completed.</p>

Title :	Health Informatics - Extension of EN ISO 13940 standard to social concepts.		
Scope :	The main aim of the technical report is to develop a conceptual model that extends the health concepts reported in the EN ISO 13940" System of concepts to support continuity of care" standard with those related to the social context. This model will represent the basis to define a standard, which facilitate the management of care pathways of an individual with the aim of making the information systems semantically interoperable considering both health, and social organizations that are involved in the provision of health and social integrated services.

Title :	Health Informatics - Architectural models for the development of integrated software applications for healthcare.		
Scope :	This technical report wants to provide a guide to support Public Administration and software application providers in the healthcare sector, in order to promote the development of ecosystem-based software systems, consisting of models, services and platforms compliant to the main international health informatics standards.		
	The main objective is to address stakeholders in adopting a holistic and integrated paradigm of health, in contrast to the current one, based on monolithic, isolated and dedicated systems. The resulting documentation will allow users to have greater awareness of syntactic and semantic interoperability models, formalization of knowledge, management and control of health processes, analysis of large amount of data and personal data protection mechanisms.

Register issued on : 7 March 2018

Subsector W05: POWER TRANSFORMERS

Subsector :	W05	Registration Date :	2018-02-19
Organization :	UNE		
Country :	Spain	Latest Date for Comments :	2018-03-31
Project ID :	P0049676/0001	Draft for public enquiry	
ICS :			
National Ref :	PNE 21538-1		
Title :	Three phase dry-type distribution transformers 50 Hz, from 100 kVA to 3150 kVA, with highest voltage for equipment not exceeding 36 kV. Part 1: General requirements. National complementary annex.		
Scope :	<p>The purpose of this document is to establish the electrical and design characteristics that are either not included in the UNE EN 50588-1 Standard or for which various options are established therein and which are widely used in Spanish electrical distribution systems . In everything that is not mentioned in this standard, what is indicated in Standard UNE-EN 50588-1 applies.</p> <p>This document applies to dry-type transformers of rated power from 100 kVA to 3150 kVA intended for operation in three-phase distribution networks, for indoor continuous service, 50 Hz, natural cooling, with two windings:</p> <ul style="list-style-type: none"> - A primary winding (high voltage) with a higher voltage for the material from 3.6 kV to 36 kV. - A secondary winding (low voltage) with a higher voltage for the material that does not exceed 1.1 kV <p>For outdoor applications, a special design or an enclosure (envelope with degrees of IP and IK protection to this application) should be specified.</p> <p>NOTE 1 This standard can be applied, in whole or in part, to transformers that have windings with more than one rated voltage. In this case, the buyer should specify the assigned power for each transformation ratio.</p> <p>NOTE 2 For dry-type transformers installed in generating plants, additional requirements not covered by this standard, and alternative requirements may be specified.</p> <p>NOTE 3 For dry-type transformers used for wind turbine applications, Standard EN60076-16 establishes additional requirements.</p>

Project ID : 01604186/0001 **Project Established**
ICS : 35.240.80
National Ref : UNI1604186
Title : Health Informatics - Extension of EN ISO 13940 standard to social concepts.
Scope : The main aim of the technical report is to develop a conceptual model that extends the health concepts reported in the EN ISO 13940" System of concepts to support continuity of care" standard with those related to the social context. This model will represent the basis to define a standard, which facilitate the management of care pathways of an individual with the aim of making the information systems semantically interoperable considering both health, and social organizations that are involved in the provision of health and social integrated services.

Title : Health Informatics - Architectural models for the development of integrated software applications for healthcare.
Scope : This technical report wants to provide a guide to support Public Administration and software application providers in the healthcare sector, in order to promote the development of ecosystem-based software systems, consisting of models, services and platforms compliant to the main international health informatics standards.
 The main objective is to address stakeholders in adopting a holistic and integrated paradigm

of health, in contrast to the current one, based on monolithic, isolated and dedicated systems. The resulting documentation will allow users to have greater awareness of syntactic and semantic interoperability models, formalization of knowledge, management and control of health processes, analysis of large amount of data and personal data protection mechanisms.
