Crowdfunding Focal Point (Cyprus)

Through the transfer of know-how from abroad and certified consultants in Cyprus, the Cyprus Chamber of Commerce and Industry (CCCI) launched this specialised focal point webspace for Cypriot companies/projects/ideas of the blue economy offering them services such as information and access to the crowdfunding markets, training for executing crowdfunding campaigns, connectivity with investors and international networking and cooperation.

The Cyprus Chamber of Commerce and Industry is a leader in promoting such alternative financing mechanisms for the blue economy of Cyprus. Participating in the <u>Blue Crowdfunding project</u> cofunded by the Interreg Med programme, the Cyprus Chamber of Commerce and Industry represented Cyprus in a consortium consisting of 13 organisations from 9 countries with the aim to promote crowdfunding as a means of financing for small and medium-sized enterprises in the blue economy.

Here is an overview of the project activities undertaken by the CCCI:

Blue Crowdfunding Interreg Med Project

The Interreg MED Programme gathers 13 European countries from the Northern shore of the Mediterranean. They are working together for a sustainable growth in the region. The Programme supports projects developing innovative concepts and practices and promoting a reasonable use of resources. The cluster will develop training programmes, dissemination activities and access to funding opportunities for companies that want to develop Blue Economy products or services in the Mediterranean area. Furthermore, the establishment of a blue crowdfunding cluster will allow us to mainstream policy solutions and strengthen the networking opportunities between its members related to crowdfunding. The cluster, its membership, services and the network will remain permanent structures after the project end. This will support institutions, improve capacities and ensure information about new trends of crowdfunding.
